J. E. Burgher, Publisher.

We are Here to Help Clay City, the Surrounding Country and Ourselves.

PUBLISHED EVERY THURSDAY

VOL. XXV.

CLAY CITY, KY., THURSDAY, JUNE 24, 1920.

NO. 24

## To Subscribers of The Times

With this issue the present publisher severs his connection with the Times. This is not as great surprise to our readers as it was to us when we learned a few weeks ago that H. G. Crabtree had sold one-half interest in the paper to J. H. O'Rear. Just who will take charge of the paper we do not know.

We had prepared a home for the paper and expected to buy it of Mr. H. G. Crabtree, its owner, and move into our own quarters, and were greatly disappointed when we learned an interest had been sold. We had all along told Mr. Crabtree to make a sale of the paper when he could, and he did as we would have done had we have had it for sale.

While we established the paper one quarter of a century ago, lacking only seven months, and have been the publisher most all the while from then till the present time, we have not owned any interest in the paper since August, 1914, when we sold the paper to M. P. O'Mara, who in turn sold it to Mr. Crabtree.

In July 1916 we leased the paper and have since been at the wheel. Mr. Crabtree has been a most pleasant lessor to deal with, and it is with much regret that we step down and out.

Wishing the paper abundant success, and assuring the new publishers that the retiring editor will do his part toward supporting it in a most substantial way, we bid farewell to our readers and wish for all them a much better paper than we have been able to make for them.

J. E. Burgher, Publisher.

## Mrs. Williams' Cut Price Sale

The big cut price sale, which is now being held by Mrs. Fannie Williams under the supervision of W. F. Fulton, the well known sales manager of the Thompson Sales Company of Des Moines, Iowa, will continue ten days longer, so you must hurry if you wish to buy merchandise that will not be duplicated in a long time.

The people of this vicinity are wise and careful shoppers and should take advantage of the big cut prices as the goods offered are all seasonable, the kind you use every day. Satisfaction guaranteed or money refunded.

## Building Ready for Brick

The new garage building of the Clay City Motors Company is now ready for the brick which is expected to be here within the next few days, or weeks at most. The rough texture brick will be used on the front and side street, which will make a handsome building when completed. It was first intended to move the Times to this building where special quarters had been provided. An office for down stairs and suitable rooms for the mechanical end of it up stairs. Failure to acquire the paper blocks this arrangement.

## Card of Thanks

We desire to extend our sincerest thanks and best wishes to those of our neighbors and good people of Clay City who so tenderly and sympathetically aided in the care of our dear little boy, Johnny, in his recent illness and death. Their kindness in this sad hour helped us to bear up much better in passing through the solemn order of giving up one so near and dear to us.

Mr. and Mrs. O. F. Rogers.

THE UNIVERSAL CAR

The Ford Touring Car is literally the pioneer in the solution of the Good Roads problem, because three million or more in operation brought up to the millions of America the necessity of good roads if quick transportation at low expense was to be enjoyed. The simplicity of the Ford car, its stability in construction, the famous heat-treated Vanadium steel with its marvelous strength and flexibility, the low cost of operation and maintenance, its ease in operation, all have made the Ford car the great favorite in every land in the world. It's the one car that always satisfies and serves. A utility beyond question that all can afford. We sell them and will be pleased to have your order. Don't delay, because the demand is heavy all the time. We have almost everything in motor car accessories, carry the genuine Ford Parts, and assure the best in mechanical repair work.

An outing party from here consisting of the following persons enjoyed picnicing last Saturday at Natural Bridge: Mrs. Addie Nelson, Viola Knight, Eldora Dunaway, Beulah Clark, Dorothy Nelson, Vernon Barnett, John McPherson, Rodney Clark, Clark McKnight, Kenneth Bush, Virgil Nelson and Lester Carr. Mrs. Nelson chaperoned the bunch.

H. C. King has had his road hands out four days, and, together with the county's road grader, has fixed our road in good shape from the creek to Clay City. Mr. King seems to be the very man for road overseer, as he gets more hands out to work than any of his predecessors. Furthermore, he says that he intends to see that every road hand works out his six days, or the "else" will be forthcoming. If this should be done, there being 17 hands, that would mean over one hundred days labor for one man. This will fix the road in tiptop order. We heartily endorse Mr. King's method of getting at this road problem, because 'tis needed so badly throughout the entire county. Other overseers should take up this plan, while we await the development in this end.

Despite the paper shortage there will be no objection to the handing of "walking papers" to a few thousand superfluous clerks in Washington.
